

### **AMENDMENTS TO THE DRAWINGS**

The attached "Replacement Sheets" of drawings include changes to Figures 13 and 14. The attached "Replacement Sheets," which include Figures 13 and 14, replaces the original sheets including Figures 13 and 14.

Attachment: Replacement Sheets

**IN THE DRAWINGS:**

Pursuant to the Examiner's request, Figures 13 and 14 have been designated as "prior art" and are included as replacement sheets.

**REMARKS**

Claims 1-9 remain pending in the present application. The Examiner has alleged that the claims and drawings illustrate distinct species. The Examiner alleges that the drawings illustrate species 1-9 which relate to Figures 1-3, 4, 5, 6, 7, 8, 9, 10, and 11, respectively. The Examiner alleges that Claim 1 appears to be generic.

Applicants assert that if the search and examination of the entire application can be made without serious burden, the Examiner must examine it on its merits, even though it includes claims to independent or distinct inventions. Here, the Examiner will uncover all alleged species during his search. Further, the Examiner has not provided any serious burden such as separate classification, or separate status in the art, or a different field of search is required. Accordingly, Applicants believe that no serious burden is involved and the Examiner must search all alleged species.

Further, Applicants allege that Claim 2 is likewise generic. Accordingly, this should also be included. In the event that the Examiner disagrees with Applicants, Applicants elect Species 1 (Figs. 1-3).

Should the Examiner have any questions regarding the present application, he should not hesitate to contact the undersigned at (248) 641-1600.

Respectfully submitted,

Dated: June 1, 2005
